

Products & Services

ADRENALIN 20W/50 - Premium Quality Multigrade Engine Oil

It is a premium quality multigrade engine oil made from highly refined base oils and high quality performance additives. It is designed for use in all motorcar and light commercial vehicles where manufacturers recommend the use of multi grade with SJ/CF performance level.

PERFORMA XV 20W/50 - High performance Monograde - Detergent Crankcase Oil

LUBCON Performa XV is high quality monograde oil recommended for both petrol and diesel engines operating under moderate and severe service conditions. It is suitable for turbocharged passenger cars, jeeps, pick-ups, light vans and four-wheel drive vehicles.

MOTORLUBE HD 50 - Heavy duty Monograde - Anti-sludge Crankcase Oil

Highly recommended for mixed fleet of petrol and diesel engines operating under heavy duty conditions. Same as NATA Power HD 50.

FORMULA A1 - Synthetic Blend

LUBCON Formula A1 is a semi-synthetic lubricant of advanced technology. It guarantees excellent lubrication for all types of car engines. Performs excellently under severe service conditions

LUBCON 2T SUPER - Premium Quality low ash, 2-stroke, Air cooled engine oil.

Developed specifically for 2 strokes engines with small horsepower. It could be used in engines where separate lubrication or premix lubricant/fuel applications are required. It is recommended for lubrication of lawnmowers, small tractors, chain saws, motorcycle engines, small-scale petrol generators, small out board engines, etc.

SUPER XV - Premium Quality Multigrade Crankcase Oil

Super XV is blended from highly refined paraffinic base stocks and sophisticated additive package. It is designed for naturally aspirated and turbocharged passenger cars, 4-wheel drive vehicles, light vans and pick-ups.

DIESELUBE HD - Premium Quality Heavy duty Crankcase Oil

Dieselube HD is premium heavy duty monograde oil blended from high quality base oil and additives primarily for naturally aspirated diesel engine operating under moderate to severe conditions. It possesses good petrol engine performance and is therefore suitable for mixed fleets operating both diesel and petrol engine vehicles. It can be used for passenger cars, trucks, buses and electrical generating engines. .

PENTAGON DTX

PENTAGON DTX is recommended for petrol and naturally aspiration diesel engines operating under moderate to severe conditions.
